

NSB 2014

10th Nordic Symposium
on Building Physics
15 – 19 June 2014
Lund City Centre, Sweden

This conference will present two tracks:

PRINCIPLES devoted to Research and PRACTICES focusing on Practical Applications and Case Studies. You are invited to submit abstracts to either the research or practical applications track. The authors of accepted abstracts will be invited to submit full papers and to give oral presentations during the conference.

Please visit our website <http://www.NSB2014.se>

Important Dates:

30 June 2013	Last day for submission of abstracts (via web)
30 September 2013	Notification of acceptance
30 November 2013	Last day for submission of first round manuscripts
16 February 2014	Last day for submission of final papers
31 March 2014	Early registration closes
15 – 19 June 2014	Symposium

Symposium Topics

Focus on energy, moisture and indoor climate

- Building Envelope Systems
- Building Materials and Structures
- Low Energy Buildings
- Moisture Safety
- Air-tightness and Air Movement
- Historical Buildings
- Retrofitting of Buildings
- Challenges of the future

Lund is a city where a thousand years of history blends with modern knowledge and visions. You will also find all the charm of a small town, side by side with the enticements and comforts of a major city. Students from all over the world attend our tradition-rich Lund University, adding a youthful pulse to Lund's cultural and entertainment scene.

Lund offers classical museums, art galleries and other sights. Theatres, music and entertainment, a variety of restaurants and cafés, can all be found within walking distance from the conference location in the city centre.

Welcome to Lund!

Practical Information

Two airports are in the vicinity of Lund. Copenhagen international airport, Kastrup in Denmark (CPH), is located approximately 55 km south-west of Lund, half an hour by train. Malmö airport (Sturup) (MMX) is located 25 km south-east of Lund.

FUKTCENTRUM

The Moisture Research Centre

Fuktcentrum in Lund is a group of around 40 researchers, PhD students and technicians from six different departments from Lund University, Chalmers University of Technology, KTH Royal Institute of Technology and SP Technical Research Institute.
