

# Climate for Culture

Climate Modeling

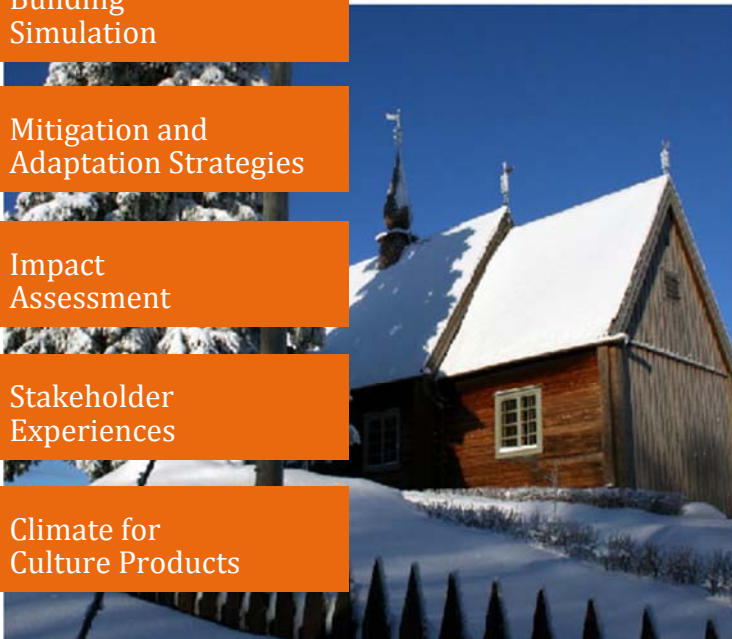

Building Simulation

Mitigation and Adaptation Strategies

Impact Assessment

Stakeholder Experiences

Climate for Culture Products

## Report on Public Website

Lead Beneficiary: Fraunhofer

Date: 28 February 2010

Issued by: Uta Meyer/Dr. Johanna Leissner

This project has received funding from the European Union's Seventh Framework Programme for research, technological development and demonstration under grant agreement No. 226973

The website for the project Climate for culture (<http://www.climateforculture.eu>) has been launched and will be updated with the relevant information continuously.

The website is divided into the following main sections:

- Project
- Case Studies
- Events
- Dissemination
- Clustering
- Useful Links
- Members' Site

Each section comprises several sub-sections:

## **Project**

### Partners

This section contains some information about all 27 partners, reachable by clicking on a country on the European map. It is obvious at first sight, from which countries the partners come from

### Political Dissemination Board

This section will contain information about the members of the Political Dissemination Board. As they are not nominated so far, there is only a short text about the function of this board:

*[The Political Dissemination Board] will have members from the EU Parliament, National Ministries, Local Authorities as well as persons involved in the wider range of decision making. The board will be an advisory board and will ensure the dissemination of the political relevant results of the project. The board will be regularly informed by the coordinator.*

### Work Packages

This section contains the description of all Work Packages (objectives, description of work) according to Annex 1 of GA.

## **Case Studies**

### Classification

This section will inform about the building classification and climate zoning as soon as this workload is finished (D. 2.1 due in month 12)

### Heritage Sites

The core content of this section is a list about heritage sites, which are under discussion to be selected as case studies for the climate and other measurements. It will be updated continuously.

## Events

### Project meetings

In this section the consortium will inform about important results of main meetings. Currently information about the Kick-Off-Meeting is available. It will be updated continuously.

### Upcoming meetings

The purpose of this section is to inform the interested public about upcoming main project meetings. As the next annual meeting will be only held in Croatia in September 2010, there is no information available currently.

### Conferences and Workshops

This section comprises information about interesting conferences and workshops within the project and external events related to the topics of the project. It will be updated continuously.

## Dissemination

### Presentations

Presentations of project members of high public interest will be published within this section. Currently there is a presentation of Dr. Johanna Leissner available:

**Damage risk assessment, economic impact and mitigation strategies for sustainable preservation of cultural heritage in the times of climate change** (at 4th International Congress "Science and Technology for the Safeguard of Cultural Heritage of the Mediterranean Basin" Cairo, Egypt, 6th - 8th December 2009)

### Press releases

In this section press releases about the project will be available. Currently you can find an overview about the press releases in connection to the Kick-Off-Meeting in Munich.

### Media releases

Cp. Press releases

### Publications

In this section selected project publications will be made available for the public. As the project only started four months ago there is no publication available at the moment.

## Clustering

This section contains information about the projects Climate for Culture is clustering with: These are:

- Noah's Arch
- SMooHs

- EU Chic
- CEN TC 346

### **Useful Links**

Interested users can find further links related to climate change and cultural heritage. This section is still under construction and will be updated continuously.

### **Members' Site**

This section leads to the internal communication platform of the project "Live Link". Access is only permitted to members of the project.

Eventually, the website fulfills all relevant FP7 regulations (logo, GA number, imprint, etc)
